

HACKATHON

Digital for Financial Inclusion

**Fight
Poverty**

5-7 February 2021

Online

Participants: 15-20 years old

Mentors: 15-200 years old

WHY

There are more than 2 billion people who do not have access to basic financial services. Over the past years digital solutions have aimed to improve financial capability, health and social well-being, increasing an individual's ability to generate income and manage finances.

WHAT

In this 2-days online hackathon you will get together with other bright minds from different countries to build the future Digital Financial Inclusion products and services to Fight Poverty.

WHO CAN JOIN

Are you aged 15 to 20? Whether you are a high school student, game changer, entrepreneur, developer, hacker, tech enthusiast or designer, you can join. Or, join as a mentor and guide the teams!

WHAT YOU GET

You will develop invaluable skills in business, tech, ethical consideration, teamwork and leadership, and work alongside our mentors from top companies and organisations! Prior to the hackathon weekend there will be 4 online workshops about:

- **Intro to Financial Inclusion**
- **UX Design**
- **Make your Chatbot**
- **Apps for Wearables**
